C6 EVO

Sistek
www.sistek.com

The top of the range in our production is the C6 EVO, the result of continuous improvements and evolution of previous systems

The smallest dimensions transmitter sensor on the market, this allows an easy and well tolerated installation on the mare

The touch screen on the base allows an easy and immediate use even by those less expert

C6 EVO TX

- Small size, smallest on the market
- Patented radio technology
- Magnet with double chemical protection
- LED light for verification of operation and good range
- Ultrasonic sealed water proof container
- Unique id that identifies the sensor
- Energy saving of the battery

C6 EVO RECEIVER

- Touch screen display
- Patented radio technology
- Battery for backup
- Easy program and settings
- Multiple usefull function
- Monitoring line power
- Multilanguage
- Testing range, battery in sensor and device
- No false alarm
